27 SEPTEMBER - 5 OCTOBER 2021

COURSE FEE:
SOUTH AFRICAN PARTICIPANTS
R 12 995 (DEPOSIT OF R 4 995)

INTERNATIONAL PARTICIPANTS
US\$ 995 (DEPOSIT OF US\$ 400)

Language

The course is conducted in English
Full competence in written & spoken English is an essential requirement

Time commitment per day
(Synchronous course)
08.30am-16.30pm SAST
(with tea/coffee & lunch breaks)

COURSE OVERVIEW

With climate risk as the central theme, this course aims to stimulate thinking and discussion about how climate risk is understood, what climate risk means in different contexts and how it can be managed.

To this end, participants will be introduced to the climate system, the importance of energy in the climate system, climate dynamics and the understanding of hazards. Participants will also gain a better understanding of the importance of context and how this influences the manifestation of vulnerability and risk to climate hazards.

Aspects of communication, behavioural change, ethics, values and choices related to climate change and risk will also be introduced.

DEADLINE FOR APPLICATION

1 SEPTEMBER 2021

30 Positions available to participate

Only online applications submitted through the online form will be accepted

Applications will be reviewed & shortlisted by a selection committee

IS THIS COURSE FOR YOU?

This intensive and fully synchronous short course is targeted at participants from countries in Southern Africa. It is of benefit for professionals who are grappling with decisions and/or policy development incorporating climate and climate change issues. The course is relevant to a variety of sectors including: Government Departments and Ministries, City Councils and Local Municipalities, NGO's, corporate organizations, and environmental consultancies.
